IWG APPOINTS BRIAN J. ULRICH AS VICE-PRESIDENT, ENGINEERING

January 8, 2008

Burnaby, BC, Canada - International Water-Guard Industries Inc., the world leader in aircraft water treatment, is pleased to announce the appointment of Brian J. Ulrich, M. Eng., P. Eng. to the position of Vice-President, Engineering.

“As IWG grows, so has the complexity of our engineering organization”, said David Fox, president and CEO. “with multiple programs underway for 2008, we are pleased to welcome Brian to lead these initiatives”, he added.

Brian Ulrich joins IWG with an extensive background in project and product management. He has provided strong business and technical leadership for complex engineering projects in the power electronics, opto-electro-mechanical print prepress, space robotics and aerospace industries. Past positions have included product manager with Xantrex Technologies of Burnaby, BC, product manager with CreoScitex Inc. of Burnaby, BC, Senior Robotics Engineer with Davion Systems, St Bruno, PQ and Rocket Propulsion Design Engineer with Bristol Aerospace Ltd, of Winnipeg, MB.

International Water-Guard is a Canadian aerospace company focusing on aircraft potable water treatment and full water system solutions. With expertise in all aspects of water treatment, IWG has the products and knowledge to provide high quality water for passengers and crew, as well as lightweight, space saving solutions for the aircraft operator.
