IWG SIGNS EUROPEAN DISTRIBUTION AND MAINTENANCE AGREEMENT WITH REHEAT INTERNATIONAL LIMITED

September 26, 2006

Burnaby, BC, Canada - International Water-Guard Industries Inc. (IWG) is pleased to announce that it has signed an agreement with Reheat International Ltd. for the distribution and maintenance of its water treatment products for the Corporate Aviation market in Europe.

“Business aviation is on a growth curve worldwide, and we wanted to ensure maximum penetration of one of its largest regions”, said David Fox, IWG’s President and CEO. “This relationship with Reheat fits with our growth plans for Europe since they have a respected and well-established sales and maintenance presence within an identified target market.”

Neil Watkins, Managing Director for Reheat International, agreed. “Our strengths complement those of International Water-Guard quite nicely. They have the water treatment equipment that the market needs, and we have the galley and cabin equipment supply and support experience to help bring that solution to market, and to maintain its effectiveness well into the future.”

Reheat International Limited supports and supplies spare parts for aircraft galley equipment and cabin components manufactured by major interiors OEM's. Reheat is an EASA 145 & FAR 145 approved maintenance organization with a well equipped service center staffed by knowledgeable and experienced technicians. Reheat is located in the south of England, just 45 minutes from London Heathrow and 1.15 Hours from London Gatwick.

International Water-Guard is a Canadian aerospace company focusing on aircraft potable water treatment and full water system solutions. IWG has expertise in all aspects of water treatment, and has the products and know-how to provide high quality water for passengers and crew, and light weight, space saving solutions for the aircraft operator.
